Allison,

This is excellent. You are sooo good.

Maybe the programmatic folks can then meet separately to brainstorm ways Oregon can meet the remaining conditions, given the current barriers (such as if Oregon only completed IR sediment TMDLs or ways other than new rulemaking for OSDS condition to be met)...

All--

To prepare for our discussion on how NOAA and EPA would like to approach the upcoming deadlines in the Oregon Settlement Agreement, I put together a quick and dirty options paper listing out the primary options as I see them as well as some potential pros/cons. There may be others that I've left out. We'll need to carefully consider all programmatic, political and legal ramifications of our decision so should be a good discussion next week.

Cheers,

Allison
